# Lithium-Ionen-Batterie BP18, BP 12, BP-XS 12

Revision date: 07.02.2023 Product code: 11912-0034 Page 1 of 11

# SECTION 1: Identification of the substance/mixture and of the company/undertaking

#### 1.1. Product identifier

Lithium-Ionen-Batterie BP18, BP 12, BP-XS 12

#### **Further trade names**

Festool BP 18 Li 5,2/5,0 AS/ASI 5S2P (10017087, 10478869, 10651888, 10043561, 10479025, 10651878) BP 18 Li 4,0 HPC-AS/ASI (10220377, 10222681, 10570666)

BP-XS 2,6 Li/Li KR (10009271, 10479020, 10651909, 203588, 10479021, 10652014),

BP 12 Li 2,5 C/US (10500436)

BP 18 Li 3,1 ERGO /KR (10018298, 204093)

BP 18 Li 3,1/3,0 ERGO-I EU/USA/OEM (10030310, 10723905)

BP 18 Li 3,1 CI /KR/USA (10043962)

BP 18 Li 3,1/3,0 C (10024683, 10737270)

# 1.2. Relevant identified uses of the substance or mixture and uses advised against

#### Use of the substance/mixture

Lithium-Ion battery < 100 Wh.

#### Uses advised against

For use as a battery-based power supply only. Do not rapture pr expose solution inside of the power cells.

#### 1.3. Details of the supplier of the safety data sheet

Company name: Festool GmbH
Street: Wertstraße 20
Place: D-73240 Wendlingen

Telephone: +49(0)7024 804 0 Telefax: +49 (0)7024 804 600

Internet: www.festool.com

Responsible Department: Responsible for the safety data sheet: sds@gbk-ingelheim.de

1.4. Emergency telephone
number: Responsible for the safety data sheet: sds@gbk-ingelheim.de
In England and Wales: NHS 111 In Scotland: NHS 24 - dial 111
Emergency telephone :+49 (0) 6132 / 84463 (GBK GmbH, Ingelheim)

#### **Further Information**

Note: This product is an "article" and is not an object that is required to issue Safety Data Sheets (SDS) by regulations concerning chemical substances. This SDS voluntarily offers helpful information for your safe handling and environmental care.

#### **SECTION 2: Hazards identification**

#### 2.1. Classification of the substance or mixture

#### **GB CLP Regulation**

This mixture is not classified as hazardous in accordance with GB CLP Regulation.

The following information is required only in case of exposure to interior battery components after damage of the external battery casing.

Undamaged, closed batteries do not represent a danger to the health.

Note: This product is an "article" and is not an object that is required to issue Safety Data Sheets (SDS) by regulations concerning chemical substances. This SDS voluntarily offers helpful information for your safe handling and environmental care.

#### 2.2. Label elements

#### **GB CLP Regulation**

according to UK REACH Regulation

# Lithium-Ionen-Batterie BP18, BP 12, BP-XS 12

Revision date: 07.02.2023 Product code: 11912-0034 Page 2 of 11

# Special labelling of certain mixtures

EUH210 Safety data sheet available on request.

# Additional advice on labelling

There is no hazard when the measures for handling and storage are followed.

#### 2.3. Other hazards

No hazards in case of an intact battery and observation of the instructions for use.

Heat development under short-circuit conditions.

In case of electrolyte leakage:

Causes severe irritation of eyes, skin and mucous membranes.

May cause respiratory irritation.

# **SECTION 3: Composition/information on ingredients**

#### 3.2. Mixtures

#### **Chemical characterization**

Lithium-Ion Battery: Mixture of the following substances

#### **Hazardous components**

CAS No	Chemical name			Quantity
	EC No	Index No	REACH No	
	Classification (GB CLP Regulation)			
7440-50-8	Copper powder			%

according to UK REACH Regulation

# Lithium-Ionen-Batterie BP18, BP 12, BP-XS 12

Revision date: 07.02.2023 Product code: 11912-0034 Page 3 of 11

Specific Conc. Limits, M-factors and ATE

CAS No	EC No	Chemical name	Quantity
	Specific Conc. Limits, M-factors and ATE		
96-49-1	202-510-0	Ethylene carbonate	%
	oral: ATE = 500 mg/kg		
21324-40-3	244-334-7	Lithium hexafluorophosphate	%
	oral: LD50 = 50 - 300 mg/kg		

#### **Further Information**

Because of the battery structure the dangerous ingredients will not be available if used properly. Undamaged, closed batteries do not represent a danger to the health.

#### **SECTION 4: First aid measures**

#### 4.1. Description of first aid measures

#### **General information**

The following first aid measures are required only in case of exposure to interior battery components after damage of the external battery casing.

Undamaged, closed batteries do not represent a danger to the health.

#### After inhalation

Ensure of fresh air.

Wash mouth and nasal passages with water.

Call a physician immediately.

Do not make mouth-to-mouth resuscitation.

If patient is not breathing, apply artificial respiration.

#### After contact with skin

Wash off immediately with plenty of water and soap for at least 30 minutes.

Take off contaminated clothing and wash it before reuse.

Seek medical treatment immediately.

# After contact with eyes

Rinse immediately with plenty of water, also under the eyelids, for at least 30 minutes.

Remove contact lenses, if present and easy to do. Continue rinsing.

Seek medical treatment by eye specialist.

# After ingestion

Rinse mouth.

Drink plenty of water or milk.

Never give anything by mouth to an unconscious person.

Do not induce vomiting.

Quickly transport victim to an emergency care facility

#### 4.2. Most important symptoms and effects, both acute and delayed

In case of electrolyte leakage:

Causes severe irritation of eyes, skin and mucous membranes.

May cause respiratory irritation.

Coughing

Shortness of breath

#### 4.3. Indication of any immediate medical attention and special treatment needed

Treat symptoms.

#### **SECTION 5: Firefighting measures**

### 5.1. Extinguishing media

according to UK REACH Regulation

# Lithium-Ionen-Batterie BP18, BP 12, BP-XS 12

Revision date: 07.02.2023 Product code: 11912-0034 Page 4 of 11

#### Suitable extinguishing media

Use in case of small fire: Water, carbon dioxide (CO2), Dry powder, Sand.

Use in case of large fire: water spray jet, Alcohol-resistant foam.

#### Unsuitable extinguishing media

Not known.

#### 5.2. Special hazards arising from the substance or mixture

During contact of electrolyte with water hydrofluoric acid can be formed.

Heat development under short-circuit conditions.

Fire may produce:

Smoke contains combustible, irritating/corrosive and toxic gases.

#### 5.3. Advice for firefighters

Wear positive pressure self-contained breathing apparatus and protection suit.

#### **Additional information**

If possible, remove batteries from fire fighting area. If heated above 125°C, batteries can explode/vent.

The batteries are not flammable but internal organic material will burn if the batteries are incinerated.

Stand upwind of the fire while extinguishing

Collect contaminated water / firefighting water separately.

#### **SECTION 6: Accidental release measures**

### 6.1. Personal precautions, protective equipment and emergency procedures

#### General advice

The following information is required only in case of exposure to interior battery components after damage of the external battery casing.

Undamaged, closed batteries do not represent a danger to the health.

Use personal protective clothing.

Avoid contact with skin, eyes and clothing.

Avoid breathing fume and gas.

Keep away noninvolved persons.

Keep away from sources of heat (e.g. hot surfaces), sparks and open flames.

#### 6.2. Environmental precautions

Do not discharge into the drains/surface waters/ground water.

#### 6.3. Methods and material for containment and cleaning up

#### Other information

Take up mechanically and send for disposal.

Waste disposal according to local regulations.

# 6.4. Reference to other sections

Information for safe handling look up section 7.

Information for personal protective equipment look up section 8.

Information for disposal see section 13.

# **SECTION 7: Handling and storage**

# 7.1. Precautions for safe handling

# Advice on safe handling

Follow the directions.

Avoid short circuiting the battery. Avoid mechanical damage of the battery. Do not open or disassemble.

Do not expose cell to temperature outside the range of 40°C to 80°C.

Do not throw into fire.

Handle in accordance with good industrial hygiene and safety practice.

At work do not eat, drink and smoke.

Wash hands and skin before breaks and after work.

according to UK REACH Regulation

### Lithium-Ionen-Batterie BP18, BP 12, BP-XS 12

Revision date: 07.02.2023 Product code: 11912-0034 Page 5 of 11

#### Advice on protection against fire and explosion

Keep away from open flames, hot surfaces and sources of ignition.

#### Advice on general occupational hygiene

Handle in accordance with good industrial hygiene and safety practice.

When using do not eat, drink or smoke.

Wash hands and skin before breaks and after work.

# 7.2. Conditions for safe storage, including any incompatibilities

#### Requirements for storage rooms and vessels

Store only in original container at cool and aired place.

Protect from moisture.

Recommended storage temperature: - 20 °C - 45°C

#### Further information on storage conditions

Protect from heat and direct solar radiation.

# 7.3. Specific end use(s)

Lithium-Ion battery < 100 Wh Note: This product is an "article".

### **SECTION 8: Exposure controls/personal protection**

#### 8.1. Control parameters

#### **Exposure limits (EH40)**

CAS No	Substance	ppm	mg/m³	fibres/ml	Category	Origin
7429-90-5	Aluminium metal, respirable dust	-	4		TWA (8 h)	WEL
7440-50-8	Copper, fume	-	0.2		TWA (8 h)	WEL
16984-48-8	Fluoride (inorganic as F)	-	2.5		TWA (8 h)	WEL

# Additional advice on limit values

During normal charging and discharging there is no release of product.

No hazards in case of an intact battery and observation of the instructions for use

#### 8.2. Exposure controls

# Appropriate engineering controls

Ensure adequate ventilation.

Provide eve bath.

Provide emergency shower.

### Individual protection measures, such as personal protective equipment

#### Eye/face protection

No special measures necessary if used correctly.

In case of electrolyte leakage: Safety goggles with side protection, Face shield

#### Hand protection

No special measures necessary if used correctly. In case of electrolyte leakage: Wear suitable gloves

#### Skin protection

No special measures necessary if used correctly.

In case of electrolyte leakage: Protective suit. Chemical resistant apron (EN 467). Boots.

#### **Respiratory protection**

No special measures necessary if used correctly.

If the occupational exposure limit is exceeded, suitable respiratory protection must be worn.

In case of electrolyte leakage: Wear respiratory protection.

according to UK REACH Regulation

0,06 kAh / 8 kWh 0,04 kAh / 0,6 kWh

# **SECTION 10: Stability and reactivity**

#### 10.1. Reactivity

No uncommon reactivity known.

#### 10.2. Chemical stability

Stable under normal conditions.

#### 10.3. Possibility of hazardous reactions

No dangerous reaction known under conditions of normal use.

#### 10.4. Conditions to avoid

Short circuit

Overcharge

Incompatible materials

heat, sparks, open flames, hot surfaces

Avoid shock and impact.

Avoid high temperatures (80°C)

Protect against direct sun radiation.

Protect from atmospheric moisture and water.

Disassembling or installation with incorrect polarity

#### 10.5. Incompatible materials

Marine water, Water, strong oxidizing agents, Strong acid.

#### 10.6. Hazardous decomposition products

No decomposition if stored and applied as directed.

Heat development under short-circuit conditions.

Fire may produce: toxic gases/vapours, Metallic oxides, carbon monoxide (CO), carbon dioxide (CO2).

### **SECTION 11: Toxicological information**

### 11.1. Information on hazard classes as defined in GB CLP Regulation

#### Toxicocinetics, metabolism and distribution

No hazards in case of an intact battery and observation of the instructions for use.

Undamaged, closed batteries do not represent a danger to the health.

#### **Acute toxicity**

Based on available data, the classification criteria are not met.

There is no hazard when the measures for handling and storage are followed.

#### Irritation and corrosivity

Based on available data, the classification criteria are not met.

# Sensitising effects

Based on available data, the classification criteria are not met.

### Carcinogenic/mutagenic/toxic effects for reproduction

Based on available data, the classification criteria are not met.

### STOT-single exposure

Based on available data, the classification criteria are not met.

# STOT-repeated exposure

Based on available data, the classification criteria are not met.

#### **Aspiration hazard**

Based on available data, the classification criteria are not met.

### 11.2. Information on other hazards

according to UK REACH Regulation

# Lithium-Ionen-Batterie BP18, BP 12, BP-XS 12

Revision date: 07.02.2023 Product code: 11912-0034 Page 8 of 11

### **Endocrine disrupting properties**

No information available.

#### Other information

If appropriately handled and if in accordance with the general hygienic rules, no damages to health have become known.

### **SECTION 12: Ecological information**

#### 12.1. Toxicity

There is no hazard when the measures for handling and storage are followed.

### 12.2. Persistence and degradability

No data available

### 12.3. Bioaccumulative potential

No data available

#### 12.4. Mobility in soil

No data available

#### 12.5. Results of PBT and vPvB assessment

The substances in the mixture do not meet the PBT/vPvB criteria according to UK REACH.

No data available

### 12.6. Endocrine disrupting properties

This product does not contain a substance that has endocrine disrupting properties with respect to non-target organisms as no components meets the criteria.

### 12.7. Other adverse effects

The following information is required only in case of exposure to interior battery components after damage of the external battery casing.

Harmful to the environment

Should not be released into the environment.

#### **SECTION 13: Disposal considerations**

#### 13.1. Waste treatment methods

#### **Disposal recommendations**

Waste disposal according to local regulations.

Do not incinerate.

# List of Wastes Code - residues/unused products
